GENERAL INFORMATION

The purpose of this modification to revise Technical Instructions EODTD-0027rev01, EODTD-0042 and add incremental funding.

1. Section G has been updated as follows:

TI-003

From: CLIN 1100 To: CLIN 100122 in the amount of \$43,127.00 (Ref SLIN 110045)

From: CLIN 1100 To: CLIN 100120 in the amount of \$100,000.00 (Ref SLIN 110051) From: CLIN 1100 To: CLIN 100121 in the amount of \$86,000.00 (Ref SLIN 110052)

From: CLIN 1100 To: CLIN 100124 in the amount of \$471.00 (Ref SLIN 110046)

TI-22

From: CLIN 1000 To: CLIN 110057 in the amount of \$20,000.00 (Ref SLIN 100119)

TI-024

From: CLIN 1100 To: CLIN 100123 in the amount of \$200,000.00 (Ref SLIN 110053)

TI-029

From: CLIN 1000 To: CLIN 110054 in the amount of \$75,000.00 (Ref SLIN 100118)

From: CLIN 3000 To: CLIN 310044 in the amount of \$6,476.00 (Ref SLIN 300037)

TI-038

From: CLIN 3200 To: CLIN 310043 in the amount of \$50,000.00 (Ref SLIN 320003)

TI-039

From: CLIN 3200 To: CLIN 310045 in the amount of \$8,231.63 (Ref SLIN 320001)

Add additional amount of .20 to Standard Number H9126990491374 from Mod 24. (Ref SLIN 110044)

CONTRACT ADMINISTRATION DATA ALLOTMENT OF FUNDS has been updated to reflect changes.

ACCOUNTING AND APPROPRIATION has been updated to add funding as applied to this modification.

2. The following is a updated funding profile for informational purposes only:

TOTAL VALUE: \$68.673,550.00

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 3 of 3	FINAL
----------------------------------	----------------------------	----------------	-------

PREVIOUS FUNDING: \$29,483,683.00
FUNDING THIS MOD: \$221,950.00
TOTAL FUNDING: \$29,705,633.00
UNFUNDED BALANCE: \$38,967,917.00

3. Section J- List of attachments is hereby changed to read:

Technical Instruction:0027
Technical Instruction:0042

Individual small business subcontracting plan dated 1 November 2007 is hereby incorporated into this task order.

TASK ORDER MANAGER (TOM)

(a) The Task Order Manager for this task order is:

Name: Jeffery Humbert

Mailing Address: 2008 Stump Neck Rd. Indian Head, MD 20640

Code:EODTECHDIV Telephone No.:301-744-6887

(b) The Alternate TOM for this contract is:

Name:

MailingAddress: Code: Telephone No.:

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 22 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(c) The TOM will act as the Contracting Officer's representative for technical matters, providing technical direction and discussion, as necessary, with respect to the specification or statement of work, and monitoring the progress and quality of contractor performance. The TOM is not an Administrative Contracting Officer and does not have authority to direct the accomplishment of effort which is beyond the scope of the statement of work in the task order.

(d) When, in the opinion of the contractor, the TOM requests effort outside the existing scope of the task order, the contractor shall promptly notify the contracting officer (or ordering officer) in writing. No action shall be taken by the contractor under such direction until the contracting officer has issued a modification to the task order, until the ordering officer has issued a modification to the task order; or until the issue has been otherwise resolved.

(e) In the event that the TOM named above is absent due to leave, illness or official business, all responsibility and functions assigned to the TOM will be the responsibility of the alternate TOM.

IHD 77 - INVOICE INSTRUCTIONS (NSWC IHD) (MAR 2007)

(a) In accordance with the clause of this contract entitled "ELECTRONIC SUBMISSION OF PAYMENT REQUESTS" (DFARS 252.232-7003), the Indian Head Division, Naval Surface Warfare Center will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture, and process receipt and payment-related documentation in a paperless environment. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed. Vendor Quick Reference Guides are also available at <http://acquisition.navy.mil/navyaos/content/view/full/3521/>. The most useful guides are "Getting Started for Vendors" and "WAWF Vendor Guide".

(c) The designated CCR EB point of contact is responsible for activating the company's CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company's CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company's CAGE code at <https://wawf.eb.mil>.

(d) The following information regarding invoice routing is provided for completion of the invoice in WAWF:

WAWF Invoice Type	Cost Voucher
Issuing Office DODAAC	N00174
Admin DODAAC	S3915A
Inspector DODAAC (if applicable)	
Acceptor DODAAC	N42794
LPO DODAAC (if applicable)	N/A
Pay DODAAC:	HQ0337
DCAA Auditor DODAAC (if applicable)	HAA47F

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 23 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

Attachments created in any Microsoft Office product may be attached to the WAWF invoice, e.g., backup documentation, timesheets, etc. Maximum limit for size of each file is 2 megabytes. Maximum limit for size of files per invoice is 5 megabytes.

(e) Before closing out of an invoice session in WAWF, but after submitting your document(s), you will be prompted to send additional email notifications. Click on "Send More Email Notifications" and add the email addresses noted below. These additional notifications to the government are necessary to make the acceptor aware that the invoice documents have been submitted into the WAWF system. Without these additional notifications, the government may be unable to process your submissions in a timely manner, which will delay payment.

Send Additional Email Notifications to the Following Addresses:
jeffrey.humbert@navy.mil
lisa.m.simmons@navy.mil
ellen.laricy@navy.mil

(f) The contractor shall submit invoices for payment per contract terms and the government shall process invoices for payment per contract terms.

(g) If you have any questions regarding WAWF, please contact the WAWF helpdesk at the above 1-866 number or the NSWC IHD WAWF point of contact, Dan Twombly, at 301-744-6648 or daniel.twombly@navy.mil.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 24 of 100	FINAL

SECTION C DESCRIPTIONS AND SPECIFICATIONS

1.0 INTRODUCTION

The Naval Explosive Ordnance Disposal Technology Division (NAVEODTECHDIV) requires technical, engineering, and management support services to compliment the organic resources of the Command, tenant activities, and other federal agencies. This statement of work (SOW) identifies and defines the effort necessary to support the Command and its mission.

2.0 BACKGROUND

Under the Secretary of Defense, the Secretary of the Navy (SECNAV) is assigned as Single Manager for military Explosive Ordnance Disposal Technology and Training (DOD Directive 5160.62). The mission of NAVTECHDIV is to exploit technology and intelligence to develop, deliver, and provide life-cycle support for explosive ordnance disposal (EOD) information, procedures, tools, and equipment to meet the needs of Joint Service EOD operating forces and other customers worldwide (OPNAVINST 8027.1). Many of the required technical, engineering, and management skills are highly specialized and are unique to military organizations and the EOD community.

3.0 SCOPE

The NAVTECHDIV efforts support the Office of the Secretary of Defense in executing the requirements of the Joint Services, the Department of the Navy, and the Naval Sea Systems Command. This support is provided through the Command organizational structure.

Information Management & Resource Planning Department

Operations Department

Acquisition & Technology Department

EOD Program Management Office

CREW Program Management Office

Environmental Compliance Office

Explosive & Occupational Safety Office

International Office

Comptroller Office

Typically, support is also provided to Naval Surface Warfare Center, Office of Naval Research, Defense Advance Research Project Agency, Mine Warfare Command, Interagency Training Center, and other federal agencies. Services shall be provided to meet the discreet and highly specialized activities in performing NAVTECHDIV core mission functions.

The following paragraphs are intended to further define the scope and are not intended to describe technical requirements.

3.1 EOD TOOLS & EQUIPMENT DEVELOPMENT

Exploits technology and intelligence to develop and deliver tools and equipment to meet the needs of Joint Service

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 25 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

EOD operating forces and other customers. The tools and equipment support EOD units in detection/location, access, examination/identification, render safe, and/or disposal of surface and underwater explosive ordnance. The scope of services includes applied research, advance technology demonstration, engineering and manufacturing development, and consulting. Projects range from full-scale development of new equipment to testing/modification of commercial off-the-shelf equipment. Provides specialized equipment and technical assistance to counter improvised nuclear devices and other weapons of mass destruction, explosive detection, and unexploded ordnance remediation evaluation and assessment. Conducts exploratory, advanced research, and technology support and engineering development in support of the Joint Service EOD Programs leading to the design of special tools and equipment for use in the detection and location, access, identification render safe recovery, and disposal of all types of explosive ordnance, and improvised explosive devices (IEDs).

3.2 EOD PROCEDURES DEVELOPMENT

Develops EOD procedures and technical information to counter munitions threats. Exploits ordnance information through the use of intelligence gathering and analysis from various technical sources and hardware. Conducts initial evaluation of foreign ordnance in developing render safe procedures. Performs technical evaluations of exploratory and emerging technology, equipment, and procedures for Weapons of Mass Destruction and EOD tools and equipment. Distributes approved procedures and information to Joint Service EOD war fighters and allies. Prepares training aids and exercises for Naval EOD School and fleet EOD groups.

Ordnance disassembly is performed on a wide range of munitions, foreign and domestic, known and unknown, surface and underwater. Disassembly techniques for new or unknown ordnance items are based on historical data, refinement of existing procedures, and/or personal experience. Munitions include all conventional ordnance fusing systems. Ordnance fillers may be explosive, inert, propellant, pyrotechnics material, white/red phosphorus, riot control agents, and chemical (excluding war gases), or a combination thereof. The ordnance may be designed for all, any, or a combination of environments (air, surface, or underwater).

Disassembled/inerted munitions are used as training aids or models in the development of EOD procedures. Live items must be partially disassembled and placed in an armed condition for live tests by project officers.

3.3 IN-SERVICE ENGINEERING & DEPOT LEVEL REPAIR

Provides operational support for Joint Service EOD tools and equipment. Provides solutions to equipment life cycle problems and coordinates implementation with customer sponsor and support organizations. Supports EOD Program Management with equipment acquisition, maintenance, and product improvements. Coordinates with the Navy Inventory Control Point (NAVICP) for supply management and re-procurement. In-service engineering is performed in accordance with the Joint Service and Underwater Configuration Management Plans and service agreements. Supports the Naval Surface Warfare Center (NSWC), Crane explosive systems program management for 2T cog ammunition for EOD systems. Provides depot level maintenance of EOD tools and equipment in accordance with Depot Inter (Intra) Service Maintenance Agreements with the Air Force, Army, Navy and Marine Corps.

3.4 EOD PROGRAM MANAGEMENT

Provides centralized direction for research, development, and life cycle management of Navy, and Joint Service Explosive Ordnance Disposal (EOD) equipment, systems, and procedures in support of Joint Service EOD Programs, Navy Underwater Systems, and

Marine Mammal Systems.

3.5 SPECIAL PROJECTS

Assists in technical evaluations of exploratory and emerging technology, equipment, and procedures for Weapons of Mass Destruction and EOD tools and equipment.

Conducts technology research and development and support the technical response team and equipment for improvised nuclear device threat countermeasures.

3.6 INTERNATIONAL PROGRAMS

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 26 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

Executes the Command's foreign liaison mission. Program areas managed include Foreign Military Sales, multilateral programs with international organizations, and negotiated bilateral international programs. Interfaces with Command Departments, Service Detachments and the Program Management Office to assess information requirements for international EOD related information exchange programs and participation in EOD related working groups. Develops, interprets, promulgates, and executes DoN policies and procedures governing the disclosure of classified and unclassified EOD information and technology to foreign governments for which bilateral and multilateral data exchange agreements do not exist. Executes the Command's NATO responsibilities relative to participation in EOD, Mine Countermeasures, Very Shallow Water Mine Countermeasures, and Underwater/Diving Working Groups.

3.7 INTELLIGENCE & TECHNICAL SUPPORT CENTER

Collects incident response data from EOD operators relative to data, tools and equipment deficiencies, incident trends, and outside agency reports of interest. Reviews and verifies EOD technical data and procedures. Provides information to EOD operators including technical library search requests, Ordnance Orders of Battle, and threat summaries and trends. Provides information to federal agencies, state/local agencies, intelligence agencies, and foreign governments.

3.8 MINE WARFARE COMMAND

Exercises operational control of Surface, Air and EOD Mine Countermeasures forces. Develops and evaluates mine warfare doctrine, tactics, and equipment. Provides mine warfare planning and intelligence on foreign mine capabilities and develop tactics to counter other nations' mining capabilities. Maintains deployable staffs and other fleet assets to support national security and to ensure safe passage of fleet units and merchant shipping. EOD Mine Countermeasures Detachments support mine hunting and mine clearance operations to locate, identify, neutralize, recover, exploit, and dispose of sea mines, torpedoes and depth charges. Monitors the exchange of data concerning mine warfare systems and procedures with foreign nations. Assists NAVEODTECHDIV and U.S. Project Officer for Data Exchange Agreements and Information Exchange Programs. Performs ABCA-5 (EOD) and ABCA-10 (Clearance Diving) related support functions.

3.9 INTERAGENCY TRAINING CENTER

The Interagency Training Center (ITC) is the National Security Agency (NSA) sponsored national research and development and training center for Technical Surveillance Countermeasures. The ITC is tasked to develop and teach new course curricula to meet increased technical threats to national security from state-sponsored intelligence, terrorist, and industrial espionage organizations. Performs research to identify new and emerging technologies, determines new requirements, develops/modifies course materials, and provides instruction utilizing new/updated information.

3.10 OFFICE OF NAVAL RESEARCH

The Office of Naval Research (ONR) sponsors science and technology in support of the U.S. Navy and Marine Corps. ONR research programs include Marine Mammal Research and Organic Mine Countermeasures Research to enhance the ability to detect, characterize, and neutralize mines.

4.0 TECHNICAL REQUIREMENTS

The Contractor shall provide technical, engineering, and management support services and products to accomplish the requirements described herein. The following task descriptions are intended to be descriptive, not specific. Contractor services shall be provided in accordance with specific, individual task/delivery orders issued by the Contracting Officer that are within the scope of this SOW and the issued contract.

The contract is an Indefinite Delivery, Indefinite Quantity, with a base period of performance of 12 months, and provisions for five 12-month option periods. Detailed task specifications and requirements for Contractor performance shall be provided via the issuance of individual task orders under this contract. The Contractor shall advise and assist the Government but shall not make final decisions or certifications on behalf of the Government nor perform any inherently governmental functions. The contract and its employees shall not represent the Government nor appear to represent the Government in performance of these contract services.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 27 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

4.1 ENGINEERING AND TECHNICAL SUPPORT

The Contractor shall provide engineering and technical support of mission programs that have a direct correlation with the mission NAVEODTECHDIV as outlined in paragraphs 1.0 through 3.0 of this SOW. Specific tasking shall include support in the following areas:

4.1.1 Engineering

Design, develop, and test specialized mechanical and electronic tools and equipment for use in EOD applications. Examples include such unique and specialized applications of state-of-the-art technology associated with:

explosive countermeasure tools,

low signature tools,

remote control systems,

underwater sensing/navigation technologies,

directed energy (microwave and laser),

magnetic sensors,

acoustic sensors,

signal processing,

electro-optic sensors,

explosive detection sensors,

explosive phenomenology,

hydrodynamic modeling,

software development,

and other advanced technologies to meet conventional, nuclear, and improvised munitions EOD threats.

a. Translate rough, often general, design concepts into complete, technically accurate design packages from which full-scale prototypes can be manufactured.

b. Provide support for the conceptual planning, design, prototyping, test coordination, testing, and documentation of electronic/mechanical devices, tools, and equipment under development.

c. Review and evaluate configuration status and relevant hardware documentation to ensure accuracy and conformance with configuration management plans and

producibility of production baseline for special EOD tools and equipment.

d. Participate in reliability and maintainability (R&M) production planning, program and design reviews, and Quality Assurance audits.

e. Provide engineering assessment and design of new equipment, product improvements of existing equipment, and application of non-developmental items (NDI).

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 28 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

f. Conduct scientific engineering research and assessments of available technologies and equipment to meet specific mission requirements for Explosive Ordnance Disposal and Special Operations Programs.

g. Conduct engineering management of fabrication, assembly, and technology demonstration of prototype equipment.

4.1.2 Systems Engineering and Technical Analysis

Provide independent engineering/technical analysis in strategic and tactical planning, systems integration, research and development, program/data analysis, logistics planning/coordination, information systems, and classified material management.

a. Assist in analyzing strategic, tactical, and policy requirements and provide analytic and technical products including performance specifications.

b. Provide exploratory and advanced research in the development and engineering of specialized tools, equipment, systems, and procedures.

c. Perform computer modeling and analytical studies to simulate dynamic scenarios and predict outcomes that will influence critical design parameters.

d. Track, review, evaluate, and provide recommendations regarding the status and progress of mission area programs of NAVEODTECHDIV.

e. Assist in the analysis of doctrine, organization, training, material, leadership, personnel and facilities in support of new equipment development.

f. Provide integrated logistics support (ILS) services in support of EOD development systems, specialized tools, equipment, and training devices consistent with DODINST 5000 series and applicable DON instructions.

g. Perform analysis to provide human system integration into EOD tools, equipment, information systems, and processes.

4.1.3 Development Programs

Perform project management functions associated with the design, development, and test of complex mechanical, electronic, and energetic tools and equipment for use in military Explosive Ordnance Disposal (EOD) applications.

a. Create, manage, and maintain detailed project management plans incorporating projections and metrics for resource management. Assist in the preparation of acquisition management documentation, program status, schedule projections, correspondence, briefings, and reports.

b. Perform research, development, tests, and simulations to investigate solutions to problems. Establish measures of performance and assess alternative technical approaches. Assist in the drafting of performance specifications.

c. Identify Work Breakdown Structure (WBS) elements for projects to support program matrix development. Assist in the preparation of acquisition program documentation such as Mission Needs Statements (MENS), Operational Requirements Documents (ORDs), Test and Evaluation Master Plans (TEMPs), procedures and test package for performing technology evaluations.

d. Prepare computer-based training for newly developed EOD tools and equipment.

4.1.4 In-Service Engineering

Coordinate in-service engineering, depot level maintenance, test and evaluation, and procurement support for assigned EOD tools and equipment in accordance with Depot Maintenance Inter-Service Support Agreements

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 29 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(DMISA).

a. Assist in performing first article inspection and acceptance testing of special EOD tools and equipment and provide government with results for validation and final acceptance by the government. Assist in the quality assurance evaluations to ensure compliance with quality standards. Track and maintain status of weapons systems hardware components, data, and related logistics requirements. Assist in the development of and maintain technical documentation in areas of logistics, production, repair, R&M, and test and evaluation. Generate and update Program Support Data Sheets (PSDS).

b. Support the Document Control Center in updating, disseminating, and archiving master documents consisting of drawings, plans, manuals, and other assorted data sets in various formats (paper, microfiche, digital media, etc.) including official, scientific and technical reports, operating and maintenance manuals, catalogs, parts lists, assembly instructions, promotional materials, and project proposals. Interpret drawing changes and perform computer aided design (CAD) database updates in accordance with ASME and MIL standards. Perform technical editing of documents drafted by subject matter experts.

4.2 ORDNANCE DISASSEMBLY

The contractor shall provide support and or assistance in the following areas for the disassembly of ordnance:

a. Assist in engineering development and perform life cycle management of EOD procedures and tactics and associated publications dealing with domestic and foreign ordnance in the munitions countermeasures area.

b. Assist government personnel in the acquisition of domestic/foreign munitions of all types. This assistance includes such actions as: market research and support in the development of acquisition planning documentation. This support does not include procurement on behalf of the Government. The Contractor shall not financially obligate the Government. Maintain the munitions design technology base.

c. Perform evaluations consisting of initial visual examination, non-invasive examination to include radiographic imaging or future derivatives thereof, and identification of components of explosive ordnance. Validate EOD procedures, and develop preliminary render safe procedures.

4.2.1 Radiography

Perform non-destructive testing (NDT) and radiography inspection (Level II) in conducting investigations of explosive components and devices of known and unknown configuration. All testing/inspection will be validated by the appropriate governmental office (i.e. Explosive Standard Operating Procedures Board, Procedures Development Dept, etc.). This support includes the interpretation and documentation of investigation results to enable safe disassembly and inerting of ordnance and to provide technical data to support the preparation of EOD technical publications. Techniques include those using x-ray, gamma, fluoroscopic, and computed tomography equipment. Technical operations include the processing of all types of radiographic film and the analysis of x ray negatives and computer generated images of the finished product. Perform troubleshooting, repair, and maintenance on radiography and related equipment.

4.2.2 Computed Tomography

Provide support in the application of Computed Tomography (CT) technology in explosive ordnance disassembly operations. Exploit the use of CT technology for 3D analysis of digital radiographic images produced from x-ray and gamma sources. Includes analysis and the creation, manipulation, and presentation of visual CT data and the identification of potential anomalies or inconsistencies in CT digital data. Requires close coordination with radiology technicians in developing techniques to attain the desired 3D analysis capabilities. The work will influence the presentation and display of electronic information contained in technical manuals and training aids such that it enhances the EOD field operator's opportunity for success.

4.2.3 Electronic Exploitation

Provide support in conducting circuit exploitation and analysis of recovered improvised explosive device (IED) firing systems and other electronic fusing/firing systems. Critical requirements exist for expedient exploitation and analysis

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 30 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

of these devices. Operations are being conducted at the NAVEODTECHDIV and by Combined Explosives Exploitation Cells (CEXC) that are forward deployed in combat zones or other high threat areas. This effort shall include, but shall not be limited to, electronic engineering and technical support, intelligence analysis support, and information technology support. NAVEODTECHDIV will provide mission specific training on IED related electronic exploitation and deployed operations. Requirements may exist for support at forward deployed sites in combat zones or other high threat areas. The scope of these requirements will be specified in individual delivery orders. Specific contract clauses applicable to these requirements are included in the solicitation.

4.2.4 Fabrication, Assembly and Test

Support the fabrication, assembly, and testing of explosive ordnance disposal and special operations equipment, to include: drafting of Conceptual Design drawings, Developmental Design Drawing and associated list, and Production drawings and associated list IAW MIL-DTL-31000B; fabrication of mechanical or electrical components, model making, and machining of workable prototype hardware; testing of advanced prototype equipment. Testing may range from, but not be limited to, shock, immersion, vibration, life-cycle analysis, or a field/laboratory demonstration of the prototype capabilities.

4.3 EOD PUBLICATIONS

Provide support in the preparation, maintenance, revision, and distribution of Automated Explosive Ordnance Disposal Publications (AEODPS). There are more than 7,800 publications in the current AEODPS covering over 40,000 ordnance items.

- a. Format technical data received from operational sources for incorporation into the AEODPS database.
- b. Apply current security regulations to outgoing classified and unclassified documents and products to ensure proper classification of information. Review historical documents for downgrading or reclassification.
- c. EOD publications require the use of publication quality photographic and computer images, and various other multi-media materials to supplement the existing line drawings. Provide support in acquiring, identifying, cataloging, and inputting imaging information into the various databases and information systems.
- d. Distribute render safe procedural information in the form of electronic 60-series EOD publications on CD-ROM.
- e. Assist in the archival maintenance of record copies of all EOD publications.

4.3.1 Technical Writing

Translate rough, often general, written concepts into complete, technically accurate documentation in accordance with military format and standards. Develop written products such as, but not limited to, Developmental Test Plans/Reports, Statements of Work, Technical Manuals, Analysis of Alternative Reports, Systems Engineering Management Plans, Risk Management Plans, Technical Performance Specifications, Source Selection Plans, etc.

4.3.2 Range Clearance Procedure Development

Provide technical support of Unexploded Ordnance (UXO) Range Assessment and Clearance Requirements to develop and implement a detailed quality assessment program for the clearance and certification of ordnance contaminated areas for alternative land use. The quality assessment process is for ordnance clearance of land and water and ensures that the results of the UXO clearance efforts provide a high degree of confidence (95 percentile) in meeting stated requirements.

4.3.3 Training Course Development

Provide specialized management and course development support in the development of Navy Training Plans and system training curricula. Conduct research and analysis of customer base and determine course requirements. Perform market surveys on commercial service availability and determine best methods of course instruction (in-house/contracted). Develop course objectives, lesson plans, and training aids for new courses (to include storyboard

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 31 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

and script for training videos). Provide recommendations and budgetary estimates for course materials and equipment. Present classroom lectures and conduct practical laboratory exercises. Provide on-site and on-the-job training to personnel in the operation and maintenance of systems, subsystems and/or equipment.

4.4 INFORMATION MANAGEMENT

Provide assistance in the areas of information technology (IT) to include research and

development and assistance to Government personnel in the development of acquisition planning documentation, and the installation and maintenance of computer hardware and

software. This support does not include procurement on the behalf of the Government. The Contractor shall not financially obligate the Government.

a. Assist the Command in making decisions regarding the management of existing IT resources and the implementation of new or expanded capability necessary for mission performance and essential business functions of the Command in a constantly changing environment.

b. Evaluate, advise, and assist with the design, integration, installation, upgrade and/or replacement, and maintenance of computer and communications infrastructure, program applications, and security.

c. Perform design, development, and maintenance in support of corporate databases incorporating business and technical ordnance information used in the distribution of software products to EOD field users. Maintain and modify existing database application designs, programmer documentation, and user manuals/on-screen support based on new or changing requirements dictated by policy, programmatic requirements, and/or technical issues.

d. Perform web-based software development tasks related to internet web site applications in direct support of the Command's mission. Investigate web technologies for use on JEODNET, NIPRNET, SIPRNET, and CD-ROM products. Develop prototypes for the purpose of demonstrating technical concepts and special software applications for customers with specific requirements.

4.4.1 Information Assurance Support

Provide Information Assurance (IA) and Certification and Accreditation (C&A) support to the NAVEODTECHDIV. These tasks will involve reviewing and evaluating documentation associated with NAVEODTECHDIV C&A plans and processes, System Security Authorization Agreements (SSA), or specific C&A actions. Review policies, procedures, and actions and provide recommendations to the appropriate authority.

These efforts may also include: reviewing and developing security engineering documents, SSAAs, and other C&A documentation; developing certification and Security Test and Evaluation plans/reports; and developing residual risk assessments, where necessary, in accordance with DON policies and NAVEODTECHDIV procedures. The Contractor shall coordinate with all appropriate points of contact to ensure consistent IA/C&A methods, processes, and configurations, as applicable, with noted exceptions tracked.

4.5 MANAGEMENT AND PROFESSIONAL SERVICES

The Contractor shall provide management and professional services in support of mission programs that have a direct correlation with the scope of effort as outlined in paragraphs 1.0 through 3.0 of this SOW. Specific tasking shall include areas of support outlined in the following paragraphs:

4.5.1 Acquisition and Procurement

Assist in the development of acquisition documentation in support of EOD technology development and the procurement of prototype and initial fleet outfitting of replacement hardware systems. Perform alternative acquisition analyses, market surveys, and life cycle support and should-cost analyses for special EOD tools and equipment. Develop acquisition documentation for the Command and other mission-related customer activities. Provide technical inputs for Program Support Data Sheets (PSDS) and prepare interim support plans and supply support transitional

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 32 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

plans. Monitor hardware contract performance for cost, schedule, and technical performance, and provide appropriate reports to the assigned Government Project Officer.

4.5.2 Financial

The contractor shall assist in performing a variety of budgeting, accounting, and administrative functions in implementing the Command's budgetary program, policies, and procedures such as: receive, review, record, file, and prepare financial documents, post transaction entries to the accounting system and local financial applications, establish Job Order Numbers to track expenses, collect, review, and post labor to the labor collection system, maintain civilian payroll information including payroll deductions, review and process travel orders, and assist in the management of the Government travel card program. Coordinate financial, accounting, budgeting, travel, and payroll matters with the appropriate internal and external customers/offices.

4.5.3 Technical Library

Provide general library support to the Technical Library to include all the necessary services to assist and augment the Government library staff in the maintenance and operation of the library. Tasks include document screening, capturing and cataloging, database management, references searches, document retrieval, circulation, and access control.

4.5.4 Intelligence Dissemination

Provide support to the Scientific and Technical Intelligence Officer (STILO) to enhance the interface and flow of intelligence between the intelligence community and the weapons development, acquisition, and research and development (R&D) communities. Identify and specifically define intelligence data required in support of the Command. Acquire intelligence and convert into a format useful to project managers, engineers, decision-makers, and EOD units.

4.5.5 Facilities

Perform administrative and liaison duties with internal and external Government entities responsible for the day-to-day operation and maintenance of the physical plant, grounds, vehicles, and heavy equipment utilized by the Command. Receive, log, and schedule service calls with the responsible parties. Schedule vehicle utilization and maintenance activities and process vehicle accident reports. Dispatch heavy equipment operators and maintain daily logs. Coordinate with Naval District Washington South Potomac (NDWSP) and NAVFAC Washington on service billings and prepare budget forecasts. Prepare Emergency Service tickets, Work Requests, and Customer Survey forms. Compile end-of-year reports. Identify current and long-term facility and space allocation requirements. Provide input into the Master Plan, the Basic Facility Requirements List, Space Allocation Plan, and other planning documents. Coordinate Command requirements for inclusion in the Intra-Service Support Agreement, Memorandum of Understanding, and Memorandum of Agreement. Assist in the development of the annual operating budget for facilities operations. In carrying out these services, the contractor has no authority to obligate the Government to expend funds.

4.5.6 Environmental Program

The Contractor shall provide support by performing functions associated with the management and disposition of hazardous waste and explosive hazardous waste in accordance with Department of Defense policy. Support the Commanding Officer in maintaining environmental permits and ensuring compliance with regulatory requirements in storing and transporting hazardous waste and submitting hazardous material samples for laboratory analysis. Maintain the Command Hazardous Substance Management System Program and support operations of the Hazardous Materials Issue and Storage Facility (HAZMART). Manage the "less-than-90-day" hazardous waste accumulation site and the Command Recycling Program. Maintain and execute the Pollution Prevention Plan.

4.5.7 Explosive Safety and Occupational Safety and Health

Support the Safety Officer in maintaining a comprehensive Explosive Safety and Occupational Health and Safety program to ensure the health and safety of all employees. Provide administrative and technical safety planning services in the areas of industrial, testing, laboratory, traffic safety, and research and development, monitoring and

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 33 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

scheduling all physical examinations, filing and submitting Standard Operating Procedures for Command approval, and monitoring Qualifications/Certifications of all explosive workers. Includes support in the functional areas of safety management, promotion and education, accident investigation, analysis and reporting, safety surveys and inspections, Explosive Safety Self-Assessments (ESSA), and safety standards development.

4.5.8 Command Administration

Support the Command Employee Resources and Development Division in civilian personnel administration programs. Coordinate with the Human Resources Office (HRO) Indian Head, MD, the Human Resources Service Center (HRSC) Silverdale, WA, and other higher echelon commands or agencies. Support shall be guided by Federal laws, rules and regulations; directives of OPM, DOD, SECNAV, DON and local directives/instructions for all administrative programs.

a. Provide management services in the area of staffing and training. Provide research assistance for applicable personnel/administrative regulations and process personnel actions. Resolve issues in processing personnel action, training requests, and various other administrative matters. Coordinate employee training and development needs, process requests for training, and document completion. Draft administrative instructions and directives. Prepare administrative reports and briefings. Create, copy, edit, revise, retrieve, and file correspondence and personnel related documents.

b. Provide support to employees and management in coordination of the incentive awards and beneficial suggestion programs, human capital performance management, worker's compensation, the civilian drug free workplace program and assist in processing requests made under the Freedom of Information Act.

c. Provide support in the area of organizational development. Assist in the performance of organizational and program analysis, position evaluation, review and assess Command organizational requirements, and develop recommendations and management strategies to incorporate new requirements and to more effectively structure positions to achieve mission goals.

d. Prepare drafts for new or revised position descriptions and provide supporting evaluation statements. Assist in classifying position descriptions in the appropriate occupational series to include, engineering, scientific, technical, managerial, staff, and clerical positions. Conduct position description desk audits and identify variances between the official position description and work actually performed. Conduct position management and organizational reviews and analyze findings relative to classification issues. Advise management on various issues involving civilian personnel staffing, wages, and classification matters. Assist in making Fair Labor Standards Act (FLSA) determinations.

e. Provide management services involving the full scope of employee labor relations programs. Assist in the negotiating process and administer labor agreements and provide guidance to management on labor relations matters. Research proposed legislation and provide recommendations for changes to labor relations/employee policies and programs. Assist in the preparation of management advocacy and post hearing activity documentation for presentation and representation before third parties including, arbitrations, the Federal Labor Relations Authority, the Merit System Protection Board, the Federal Mediation and Conciliation Service, the Federal Service Impasses Panel, the Office of Workers' Compensation Programs, and The Equal Employment Opportunity Commission. Assist in the evaluation of laws, regulations, and precedents related to third parties. Research bargaining issues and negotiability and assist in negotiating technically difficult and complex federal union contracts. Assist in the analysis of and provide options related to a variety of employee conduct and performance-based problems. Review administrative grievances and provide recommendations to the Command. Provide support to Human Resources office personnel and to Counsel on matters involved in litigation, as appropriate. Research labor and employee relations regulations, case decisions and historical information using internet research tools.

5.0 GENERAL REQUIREMENTS

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 34 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

5.1 PLACE OF PERFORMANCE

Work shall be performed on-site at the NAVEODTECHDIV except when individual task requirements should, of necessity, or more logically, be performed off-site at other Government agencies, field sites, or Contractor facilities. When work is performed on site, the Contractor shall utilize Government furnished facilities, equipment, and materials including workstations, computers and ancillary devices, and general office supplies. The Government will provide on-site Contractor personnel with access to all required facility areas, equipment, and necessary paper and electronic data files in support of each individual task order.

Requirements may exist for support at forward deployed sites in combat zones or other high threat areas. The scope of these requirements will be specified in individual delivery orders. Specific contract clauses applicable to these requirements are included in the solicitation.

5.2 WORKING HOURS

The Contractor shall perform the tasks included in this SOW on a regular 8-hour/5-day workweek schedule between the hours of 0630 – 1630. Alternative work schedules such as on-call duty and rotating shifts may be required. Such work schedules will be at the discretion of the Government. Work during other than normal hours may be necessary to meet project requirements. This represents an adjustment in schedule and is not considered overtime. Work outside regular duty hours requires prior approval from the Contracting Officer's Representative (COR) and notification of the Security Office.

5.3 SECURITY CLEARANCE

Contractor facilities are required to have a security clearance at the TOP SECRET level IAW the attached DD254. All contractor employees must be United States citizens and shall be cleared at the minimum of the SECRET level. Top Secret contractor employee clearance will be required on a case by case basis and an appropriate DD254 will be included in specific delivery orders issued under this contract.

5.4 MEDICAL CERTIFICATIONS

Contractor personnel performing ammunitions and explosive handling tasks under the scope of the contract at government facilities or property must meet the medical certification requirements of Manual of the Medical Department, NAVMED P-117, paragraph 15-71B (3)(a)-(i) and Medical Surveillance Procedures Manual and Medical Matrix, NEHC-TM OM 6260. The term "civilian personnel" shall mean "contractor personnel." Contractor personnel assigned to such duties are responsible to report to their contractor supervisor any physical condition, which may pose a health or safety hazard to self, coworkers, or degrades the safety of the working environment. Contractors are responsible for directing those employees, thought to have a physical impairment which may pose a health or safety hazard, to the appropriate medical practitioner for examination.

5.5 TRAINING

The Government will provide training on Government unique computer software applications, databases, and systems, as required, and/or as specified in individual delivery orders. The Government will also provide compulsory security orientation/indoctrination briefings and other such security training required by policy and regulation. This training will take place on-site during normal working hours without any additional compensation. Required training to qualify specific contractor employees for operational duties such as deployment to hostile environments will be provided by the Government and will be specified in individual delivery orders.

The Contractor shall be responsible for providing required training to its employees in such areas as environmental, health, safety, security, sexual harassment, ethics, etc. to ensure compliance with all federal, state, and local laws and DOD regulations.

5.6 TRAVEL

The Contractor may be required to travel in performance of this contract. Specific travel requirements shall be delineated in individual task orders and shall be in accordance with the JFTR/FTR.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 35 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

5.7 DELIVERABLES

Data shall be delivered in accordance with the individual task/delivery orders. All deliverables associated with this SOW are “unclassified” unless otherwise specified in the individual task orders. All reports required as deliverables under this contract are the property of the U.S. Government. Reports shall not contain Contractor name, logo or other identifying device.

5.8 FREEDOM OF INFORMATION AND PRIVACY ACTS. Contractor employees performing tasks under the provisions of this task order are responsible for an understanding of and compliance with the provisions of the Freedom of Information Act (FOIA), at Title 5, United States Code, section 552; and the Privacy Act (PA), at Title 5, United States Code, section 552a. Records under the control of the Department of the Navy are subject to the Freedom of Information Act, and sensitive, personal information and data are subject to the provisions of the Privacy Act. The unauthorized release of information subject to one or both statutes is prohibited, and may result in criminal, civil, and administrative sanctions and penalties. Questions regarding the application of these statutes should be forwarded to the contracting officer’s representative, and/or the contracting officer. The IHDNSWC FOIA/PA coordinator may be contacted at telephone number (301) 744 5600. An unauthorized release of information covered by the Freedom of Information Act, the Privacy Act, or both, may result in termination of this contract for default.

IHD 17 – Personnel Qualifications (Minimum) NAVSEA/IHD (FEB 2000)

(a) Personnel assigned to or utilized by the Contractor in the performance of this contract shall, as a minimum, meet the experience, educational, or other background

requirements set forth below and shall be fully capable of performing in an efficient, reliable, and professional manner. If the offeror does not identify the labor categories listed below by the same specific title, then a cross-reference list should be provided in the offeror’s proposal identifying the difference.

(b) The government will review resumes of Contractor personnel proposed to be assigned, and if personnel not currently in the employ of the Contractor, a written agreement from the potential employee to work will be part of the technical proposal.

(c) If the Ordering Officer questions the qualifications or competence of any person performing under the contract, the burden of proof to sustain that the person is qualified as prescribed herein shall be upon the Contractor.

(d) The Contractor must have the personnel, organization, and administrative control necessary to ensure that the services performed meet all requirements specified in delivery orders. The work history of each Contractor employee shall contain experience directly related to the tasks and functions to be assigned. The Ordering Officer reserves the right to determine if a given work history contains necessary and sufficiently detailed, related experience to reasonably ensure the ability for effective and efficient performance.

Labor Category Educa-

tion Description

Program Manager (Key) (Top Secret)

Master's Degree MS/MA in engineering, scientific, or technical discipline. At least fifteen (15) years of recent experience in progressively increasing levels of responsibility preferably related to management of EOD, naval weapons, or ordnance system programs. Experience to include at least six (6) years of experience in the management and control of budgets, personnel, and material resources for ID/IQ contracts of this type and complexity. A BS/BA degree and an additional six (6) years of recently demonstrated capability in overall Program Management experience may be substituted for a Master’s degree.

Scientist II (Top Secret)

PHD in a scientific, technical, or other specified discipline. At least ten (10) years of recent experience in the design, development and evaluation of research and development programs preferably related to EOD, weapons, or ordnance system programs. Experience to include at least five (5) years in progressively increasing levels of responsibility

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 36 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

functioning as a technical team leader responsible for specific duties related to the technical and engineering disciplines cited herein. Recent experience must also be demonstrated in project management, to at least a task leader level, including the control of budgets, personnel, and material resources.

Scientist I (Secret)

Master's Degree MS/MA in a scientific, technical, or other specified discipline. At least six (6) years of recent experience in the design, development and evaluation of scientific programs preferably related to EOD, weapons systems, or ordnance systems. Experience to include at least three (3) years in progressively increasing levels of responsibility functioning as a technical team leader responsible for specific technical duties related to the disciplines cited herein. Experience must also be demonstrated in project management, to at least the task leader level including control of budgets, personnel, and material resources. A BS/BA degree and an additional four (4) years of recent experience may be substituted for a Master's degree.

Engineer III (Deployable) (Key/Top Secret)

Bachelor's Degree BS in electrical engineering. At least eight (8) years of recent experience in the design, development and evaluation of engineering programs preferably related to EOD, weapons systems, ordnance, or associated equipment. Experience to include at least three (3) years experience in Signals Intelligence or RF communications programs in a military environment. U.S. military or previous overseas deployment experience desired. Incumbent will deploy for 6-12 month periods to hostile environments.

Engineer III (Secret)

Master's Degree MS in engineering discipline. At least ten (10) years of recent experience in the design, development, and evaluation of engineering programs preferably related to EOD, naval weapons systems, ordnance, or associated equipment. Experience to include at least five (5) years in progressively increasing levels of responsibility functioning as an engineering team leader responsible for specific technical duties related to the disciplines cited herein. Three years of recent experience must also be demonstrated as a project manager, to at least a task leader level, including the control of budgets, personnel, and material resources. A BS and an additional six (6) years of experience may be substituted for the Master's degree.

Engineer II (Secret)

Bachelor's Degree BS in engineering, technical, or other appropriate discipline. At least five (5) years of recent experience in the design, development, and evaluation of engineering programs preferably related to EOD, naval weapons systems, ordnance, or associated equipment. Three (3) years of experience functioning on an engineering team with technical duties related to the disciplines cited herein.

Engineer I (Secret)

Bachelor's Degree BS is required in engineering, technical, or other appropriate discipline. At least two (2) years of recent experience in the design, development, and evaluation of engineering programs preferably related to EOD, naval weapons systems, ordnance, or associated equipment. An AS degree and an additional four (4) years of experience; or six (6) additional years of experience may be substituted for a degree.

Design Engineer II (Secret)

Bachelor's Degree BS/BA in an engineering, technical, or other appropriate discipline. At least three (3) years of recent experience using computer-based 2D and 3D applications in the design of engineered systems and components; preferably related to weapons systems, ordnance, or associated equipment. At least three (3) years of recent experience in progressively increasing levels of responsibility providing design support to engineering teams.

Design Engineer I (Secret)

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 37 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

Bachelor's Degree BS/BA in an engineering, technical, or other appropriate discipline. At least one (1) year of recent experience using computer-based 2D and 3D applications in the design of engineered systems and components; preferably related to weapons systems, ordnance, or associated equipment. An additional six (6) years of experience may be substituted for the degree.

Electronics Technician (Deployable)(Key/Top Secret)

Associate's Degree AS/AA in electronics technology or other relevant technical degree, or completion of an equivalent technical course of instruction. Ten (10) years of recent experience in electronics or communications design, diagnostics and repair. Experience to include five (5) years experience with RF transmission/reception phenomenon and spectrum analysis, preferably in a military environment. Five (5) additional years of experience may be substituted for a degree. Incumbent will deploy for 6-12 month periods to hostile environments.

Electronics Technician (Top Secret)

Associate's Degree AS/AA in electronics technology or other relevant technical degree, or completion of an equivalent technical course of instruction. Ten (10) years of recent experience in electronics or communications design, diagnostics and repair. Experience to include five (5) years experience with RF transmission/reception phenomenon and spectrum analysis, preferably in a military environment. Five (5) additional years of experience may be substituted for a degree.

Engineering Tech / Tradesman (Secret)

HS Diploma HS diploma or equivalent. Four (4) years recent experience and demonstrated ability in a technical field, such as electrician, welder, carpenter, sheet metal worker, machinist, etc. Specialized training/certification may substitute for two (2) years experience.

Software Engineer IV (Key/Secret)

Bachelor's Degree BS/BA in computer and information systems, programming, or related discipline. An advanced degree is desirable. At least ten (10) years of recent experience in the design, development, and evaluation of computer and software applications, preferably related to naval systems. Experience to include at least five (5) years in progressively increasing levels of responsibility functioning as a technical team leader of a multi-disciplinary IT team. Experience must also be demonstrated as a project manager, at least to the task leader level, including control of budgets, personnel, and material resources.

Software Engineer III (Secret)

Bachelor's Degree BS/BA in computer and information systems, programming, or related discipline. At least ten (8) years of recent experience in the design, development, and evaluation of computer and software applications, preferably related to naval systems. Experience to include at least two (2) years in progressively increasing levels of responsibility functioning on an IT development, evaluation, or test team with specific duties related to the disciplines cited herein. Equivalent relevant technical certification and an additional two (2) years may be substituted for a degree.

Software Engineer II (Secret)

Bachelor's Degree BS/BA in computer and information systems, programming, or related discipline. At least five (5) years of recent experience in the design, development, and evaluation of computer and software applications, preferably related to naval systems. Experience to include at least two (2) years in progressively increasing levels of responsibility functioning on an IT development, evaluation, or test team with specific duties related to the disciplines cited herein. Equivalent relevant technical certification or an additional four (4) years of experience may be substituted for a degree.

Software Engineer I (Secret)

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 38 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

Associate's Degree AS/AA in computer and information systems, programming, or related discipline. A Bachelor's degree is desirable. At least one (1) year of recent experience in the design, development, and evaluation of computer and software applications. An equivalent technical certification or an additional three (3) years of experience may be substituted for a degree.

Software Tester (Secret)

Associate's Degree AA/AS in information systems or related IT field. At least four (4) years of recent experience in developing test plans for developing software application projects, performing regression testing, and identifying critical defects. Relevant technical certification and two (2) years of additional experience may be substituted for a degree.

Training Specialist II (Secret)

Bachelor's Degree BS/BA in information systems or related IT field. At least five (5) years of recent experience in developing training plans/guides, providing hardware/software training, instruction, and support. Experience to include at least two (2) years in progressively increasing levels of responsibility functioning on an IT development, evaluation, or training team with specific duties related to the disciplines cited herein. Equivalent relevant technical certification or an additional four (4) years of experience may be substituted for a degree.

Training Specialist I (Secret)

Associate's Degree AA/AS in information systems or related IT field. Four (4) years of recent experience in developing training plans/guides, providing hardware/software training, instruction, and support. Relevant technical certification and two (2) years of additional experience may be substituted for a degree.

Network Engineer II (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, business, or other appropriate technical discipline. An advanced degree is desirable. At least fifteen (15) years of recent experience performing progressively more complex network engineering/ administration duties to include a minimum of five (5) years as lead on such systems. A minimum of five (5) years performing these duties on DoD systems/networks. Specific experience in hardware/software design and development, analysis, and implementation of system solutions is desired. Five (5) additional years of experience may be substituted for a degree.

Network Engineer I (Deployable/Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, business, or other appropriate technical discipline. At least five (5) years of recent experience performing progressively more complex network engineering/administration duties. A minimum of two (2) years performing these duties on DoD systems/networks. Specific experience in hardware/software design and development, analysis, and implementation of system solutions is desired. Five (5) additional years of experience may be substituted for a degree. Incumbent will deploy for 6-12 month periods to hostile environments.

Network Engineer I (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, business, or other appropriate technical discipline. At least five (5) years of recent experience performing progressively more complex network engineering/administration duties. A minimum of two (2) years performing these duties on DoD systems/networks. Specific experience in hardware/software design and development, analysis, and implementation of system solutions is desired. Five (5) additional years of experience may be substituted for a degree.

System Administrator (Deployable/Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, business or other appropriate technical discipline. At least eight (8) years of recent experience in managing multi-user computer environment/local area network installing and configuring system hardware and software; establishing and managing user accounts;

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 39 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

upgrading software; and backup/recovery tasks. An equivalent technical certification or an additional three (3) years of experience may be substituted for a degree. Incumbent will deploy for 6-12 month periods to hostile environments.

System Administrator (Secret)

Bachelor's Degree An equivalent technical certification or an additional three (3) years of experience may be substituted for a degree. At least eight (10) years of recent experience in managing multi-user computer environment/local area network installing and configuring system hardware and software; establishing and managing user accounts; upgrading software; and backup/recovery tasks. An equivalent technical certification or an additional three (3) years of experience may be substituted for a degree.

Systems Analyst II (Secret)

Bachelor's Degree BS/BA in computer science or related field. At least eight (8) years of recent technical experience analyzing and designing computer systems. Knowledge of current storage and retrieval methods and the demonstrated ability to formulate and develop requirements and specifications for computer programmers to use in coding, testing, and debugging computer programs. Provides technical direction and supervision of personnel performing system and software development tasks. Performs quality reviews and coordinates with the Project Manager to ensure problem resolution and customer satisfaction. Provides recommendations for approval of major system installations. An additional four (4) years experience may be substituted for the degree.

Systems Analyst I (Secret)

Bachelor's Degree BS/BA in computer science, or related field. At least five (5) years of recent experience analyzing and supporting the design of computer systems. Analyzes user interfaces, workload and computer usage, outside system interfaces, downtime, system modifications, upgrades, and information to be processed. Defines problems and develops system requirements. An additional four (4) years experience may be substituted for the degree.

Database Administrator (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, business or other appropriate technical discipline. At least ten (12) years of recent experience gained by direct practice in database management system (DBMS) design, organization, and structuring. Performs such tasks as building file structures, table referencing, mapping, interfacing, and report generation to support technical, scientific, programmatic, and/or management related requirements. An equivalent technical certification and an additional three (3) years of experience may be substituted for a degree.

Web Applications Developer II (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, or other appropriate technical discipline. An advanced degree is desirable. At least fifteen (15) years of recent experience in the design, development and evaluation of web-based software applications, preferably related to naval systems. Experience to include eight (8) years experience in progressively increasing levels of responsibility on a development, evaluation or test team with specific duties related to the disciplines cited herein. An equivalent technical certification and an additional five (5) years of experience may be substituted for a degree.

Web Applications Developer I (Secret)

Bachelor's Degree A BS/BA is required in computer science, information systems, engineering, or other appropriate technical discipline. At least eight (8) years of recent experience in the design, development and evaluation of web-based software applications, preferably related to naval systems. Two (2) years of progressive responsibility on a development, evaluation or test team with specific duties related to the disciplines cited herein. An equivalent technical certification and an additional four years of experience may be substituted for a degree.

Information Assurance Specialist II (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, or other appropriate technical discipline. At least five (5) years of recent experience with DoD Information Assurance requirements. Establishes and

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 40 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

satisfies system-wide information security requirements based on the analysis of user, policy, regulatory, and resource demands. Coordinates with senior-level customers to address program goals, milestones, resources and risks. Applies expertise to Government and commercial common user systems, as well as to dedicated special purpose systems requiring specialized security features and procedures such as classified intelligence and command and control related networks.

Information Assurance Specialist I (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, or other appropriate technical discipline. At least three (3) years of recent experience with DoD Information Assurance requirements. Establishes and satisfies system-wide information security requirements based on the analysis of user, policy, regulatory, and resource demands. Coordinates with senior-level customers to address program goals, milestones, resources, and risks. Applies expertise to Government and commercial common user systems, as well as to dedicated special purpose systems requiring specialized security features and procedures such as classified intelligence and command and control related networks.

Help Desk Technician (Secret)

Associate's Degree AA/AS in information systems or related IT field, or relevant technical certification. At least two (2) years of recent experience working in a help desk environment identifying and resolving equipment and/or software-reported problems. A high school diploma and an additional two (2) years experience may be substituted for a degree.

Project Manager (Secret)

Bachelor's Degree BS/BA in computer science, information systems, engineering, business, or other appropriate technical discipline. Six (6) years of recent experience in a related field including at least four (4) years supervisory experience. Excellent verbal and written skills. Responsible for all aspects of project performance and provides overall direction to all project activities and personnel. Formulates and enforces work standards, assigns project schedules, reviews work, and communicates policies and organizational goals and objectives to all project personnel. An additional four (4) years experience may be substituted for a degree.

Radiography Technician (Top Secret)

HS Diploma Certification as Level II Non Destructive Test (Radiography) inspector in accordance with MIL-STD-410 and/or SNT-TC-1A. A minimum of 320 hours of recent experience in performing industrial radiography using industrial X-ray equipment and a minimum of 320 hours performing industrial radiography using gamma sources.

EOD Technician (Key/Secret)

Bachelor's Degree BS/BA in science, engineering, management or other relevant field. A Senior EOD qualification is required. Five (5) years of recent experience performing a variety of EOD tasks with a minimum of three (3) years as an EOD team manager. Experience in ordnance/fuse disassembly is desired. Associate's degree and two (2) additional years of EOD experience, or total of five (5) additional years of EOD experience may be substituted for a Bachelor's degree.

Intelligence Analyst II (Secret)

Bachelor's Degree BS/BA in political science, international affairs or other intelligence related field. An advanced degree is preferred. A minimum of ten (10) years of recent experience in positions of increasing responsibility providing analysis in a multi-agency intelligence environment, preferably related to ordnance and weapon systems. Six (6) years additional experience may be substituted for a degree.

Intelligence Analyst I (Deployable/Top secret)

Associate's Degree AS/AA in business, management, computer and information systems or related field. A bachelor's degree is preferred. A minimum of two (2) years of recent experience as an analyst in multi-agency intelligence field, preferably related to ordnance and weapon systems. A high school diploma or equivalent

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 41 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

certification and two (2) additional year of experience may substitute for the degree. Incumbent will deploy for 6-12 month periods to hostile environments.

Intelligence Analyst I (Secret)

Associate's Degree AS/AA in business, management, computer and information systems or related field. A bachelor's degree is preferred. A minimum of two (2) years of recent experience as an analyst in multi-agency intelligence field, preferably related to ordnance and weapon systems. A high school diploma or equivalent certification and two (2) additional years of experience may be substituted for the degree.

Quality Assurance Specialist II (Secret)

Bachelor's Degree BS/BA in engineering, engineering management or other appropriate technical discipline. At least ten (10) years of recent experience in the quality assurance field preferably involved with weapons systems, ordnance, or associated equipment. At least eight (8) years experience in progressively increasing levels of responsibility functioning on an engineering or production team with specific technical duties related to the disciplines cited herein. Formal QA certifications, or an additional five (5) years of experience may be substituted for a degree.

Quality Assurance Specialist I (Secret)

Associate's Degree AS/AA in engineering, engineering management, or other appropriate technical discipline. At least two (2) years of recent experience in the quality assurance field preferably involved with weapons systems, ordnance, or associated equipment. Formal QA certification, or an additional two (2) years of quality assurance experience may be substituted for a degree.

Program Analyst IV (Secret)

Master's Degree MS/MA in business, management, computer technology/information systems, or other relevant field. At least twenty (20) years of recent experience in a related discipline. Ten (10) years experience in DoD program/project management, workload planning, and resource allocation. BS/BA degree and five (5) additional years of relevant experience may be substituted for the advanced degree.

Program Analyst III(Secret)

Bachelor's Degree BS/BA in business, management, computer technology/information systems or other relevant field. MS/MA desired. At least ten (10) years of recent experience in a related discipline. Eight (8) years experience in DoD program/project management, workload planning, and resource allocation. AS/AA and five (5) years of additional experience, or ten (10) additional years of relevant experience may be substituted for the degree.

Program Analyst II (Secret)

Bachelor's Degree BS/BA in business, management, computer technology/information systems or other relevant field. At least five (5) years of recent experience in a related discipline. Three (3) years experience in DoD program/project management, workload planning, and resource allocation. AS/AS and three (3) years of additional experience, or six (6) additional years of relevant experience may be substituted for the degree.

Program Analyst I (Secret)

Associate's Degree AS/AA in business, management, computer technology/information systems or other relevant field. At least two (2) years of recent experience in DoD program/project management, workload planning, and resource allocation. HS Diploma and (3) years of additional experience may be substituted for the degree.

Analyst III (Secret)

Bachelor's Degree BS/BA in science, engineering, management or other relevant field. MS/MA preferred. At least eight (8) years of recent experience in a technical discipline relevant to stated requirements such as EOD,

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 42 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

communications, security, intelligence, facilities, environmental or OSH programs. Associate's degree and two (2) additional years of experience; or a total of five (5) additional years of experience may be substituted for a bachelor's degree.

Analyst II (Secret)

Bachelor's Degree BS/BA in science, engineering, management or other relevant field. At least four (4) years of recent experience in a technical discipline relevant to stated requirements such as EOD, communications, security, intelligence, facilities, environmental or OSH programs. Associate's degree and three (3) additional years of experience; or a total of five (5) additional years of experience may be substituted for a bachelor's degree.

Analyst I (Secret)

Associate's Degree AS/AA in science, engineering, management, or other relevant field. At least two (2) years of recent experience in a technical discipline relevant to stated requirements such as EOD, communications, security, intelligence, facilities, environmental or OSH programs. Two (2) additional years of experience may be substituted for the degree.

Financial/Budget Analyst II (Secret)

Bachelor's Degree BS/BA in business, accounting, finance or related discipline and a minimum of five (5) years of recent experience performing various cost projections and analysis functions such as tracking cost documentation, maintaining historical data records, and providing out-year cost estimates. Advanced degree is preferred. Cost analysis experience of at least three (3) years is desirable as well as the ability to operate/maintain detailed cost analysis programs. Associate's degree plus five (5) additional years of experience; or an additional ten (10) years of experience may be substituted for the BS degree.

Financial/Budget Analyst I (Secret)

Associate's Degree AS/AA in business, accounting, finance or related discipline and a minimum of two (2) years of recent experience performing various cost projections and analysis functions such as tracking cost documentation, maintaining historical data records, and providing out-year cost estimates. Cost analysis experience of at least one (1) year is desirable as well as capability to operate/maintain detailed cost analysis programs. An additional four (4) years of experience may be substituted for the degree.

Logistician III (Key/Secret)

Bachelor's Degree BS/BA in business, management, or other relevant field. Must possess DAWIA Level II certification (Level III preferred). Eight (8) years of recent experience in the application of logistics processes for ensuring effective and economical support for manufacturing or servicing systems and equipment. Knowledgeable in DoD acquisition and procurement processes, contractual documents, and specifications. Ability to plan and execute lifecycle logistic programs and to identify logistics impact based on systems and equipment design changes. An associate's degree plus two (2) additional years of experience; or a total of eight (8) additional years of experience may be substituted for the degree.

Logistician II (Secret)

Associate's Degree AS/AA in business, management, or other relevant field. Four (4) years of recent experience in one or more specified logistics elements. Experienced in the application of logistics processes for ensuring effective and economical support for manufacturing, or servicing systems and equipment. Knowledgeable in DoD acquisition and/or procurement processes, contractual documents, and specifications. Three (3) additional years of experience may be substituted for a degree.

Logistician I (Secret)

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 43 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

HS Diploma or equivalent and a minimum two (2) years of recent experience in supply/procurement functions. Knowledge and experience may include receipt/issue; inventory and applicable control processes; military and industry standards for packaging and shipping.

Human Resources Specialist III (Secret)

Master's Degree MS/MA in human resources, business administration, management, or other relevant field. Ten (10) years of recent experience in analyzing, managing and improving major aspects of human resources, organizational processes and functions, with a minimum five (5) years in a Federal Agency environment. BA/BA and six (6) years of additional experience, or twelve (12) total additional years of experience may be substituted for the degree.

Human Resources Specialist II (Secret)

Bachelor's Degree BS/BA in human resources, business administration, management, or other relevant fields. Four (4) years of recent experience in analyzing, managing and improving major aspects of human resources, organizational processes and functions, with a minimum three (3) years in a Federal Agency environment. AS/AA and two (2) years of additional experience; or an additional four (4) years of experience may be substituted for the degree.

Human Resources Specialist I (Secret)

Associate's Degree AS/AA in human resources, business administration, management, or other relevant fields. Two (2) years of recent experience in analyzing, managing and improving major aspects of human resources, organizational processes and functions, with a minimum one (1) year in a Federal Agency environment. A HS Diploma and two (2) years of additional experience may be substituted for the degree.

Labor Relations Specialist (Secret)

Master's Degree MS in Labor Relations, Counseling, or a related discipline. At least ten (10) years of recent experience in managing employee and labor relations programs in Federal Agencies. Knowledge of employee and labor relations case law. Highly developed skill in dealing with labor union representatives. BS/BA and an additional six (6) years of experience may be substituted for the Master's degree.

Organization Development Specialist (Secret)

Bachelor's Degree BS/BA in Business Management or related discipline. At least ten (10) years of recent experience in position classification and organizational development including position management and cost-benefit analysis in Federal Agencies. Experienced in designing efficient, effective, and economical organizations.

Administrative Assistant (Secret)

HS diploma or equivalent, and technical/administrative training for the applicable functional area of support. At least one (1) year of recent experience in an office environment. Provides support to business managers, administrators, engineers, scientists, analysts, specialists, and/or technicians. Training and experience may include developed skills and ability in the use of word processing, spreadsheets, databases, desktop publishing, and/or drafting/graphics integration to fulfill the preparation and delivery of technical documentation and data to support the mission.

Librarian (Top Secret)

Master's Degree MS/MA in Library Science, Information Systems, Management, or other relevant field. At least two (2) years of recent experience in performing the functions associated with the operation of a technical library and one (1) year experience in overseeing two or more library technicians. Should include experience using a variety of database software applications and the ability to prioritize and perform a variety of jobs by evaluating immediate customer needs and the long-term significance of tasks. Experienced in dealing with customers and in coordinating the tasks and workflow of others. A Bachelor's degree and an additional two (2) years of experience may be substituted for a Master's degree.

Library Technician (Secret)

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 44 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

Associate's Degree AS/AA in Library Science, Information Systems, Management, or other relevant field. At least one (1) year of recent experience performing tasks associated with the operation of a technical library such as performing database searches and retrievals. Includes experience in performing tasks using a variety of PC software packages to the extent that documents/files can be generated, printed, archived, and retrieved. Must possess accurate data entry skills with a typing speed of 35 WPM. A HS diploma and an additional two (2) of experience may be substituted for a degree.

Technical Writer II (Secret)

Master's Degree MS/MA in a technical, writing, or other English language discipline. At least eight (8) years recent experience in technical writing/editing. Prepares and/or provides editorial and quality assurance for technical/user's manuals, installation guides, specifications, technical reports, system planning documents, training materials, and other technical documentation in accordance with applicable government specifications. BS/BA and four (4) additional years of experience; or eight additional years experience in the technical editing/writing field may be substituted for the Master's degree.

Technical Writer I(Secret)

Bachelor's Degree BS/BA in a technical, writing, or other English language discipline. At least five (5) years of recent technical writing/editing experience. Prepares and/or provides editorial and quality assurance for technical/user's manuals, installation guides, specifications, technical reports, system planning documents, training materials, and other technical documentation in accordance with applicable government specifications. AS/AA and four (4) additional years of experience may be substituted for a degree.

Multimedia Specialist (Secret)

Bachelor's Degree BS/BA in a technical field, graphic arts or studio arts. At least five (5) years of recent experience using illustrations/graphic techniques for creation of graphics, cutaways, images, and other visual representations using industry standard software; or five years experience in still/video photography. AS/AA and two (2) additional years experience; or four (4) additional years experience may be substituted for the Bachelor's degree.

Data Technician (Secret)

HS diploma or equivalent. At least one (1) year of recent experience in data entry services using typical application software and one (1) year experience using standard office products to include word processing and spreadsheets. Technicians shall be familiar with concepts and methodologies for compiling data from multiple sources, developing databases, maintaining, retrieving, and compiling data.

HQ C-2-0037 ORGANIZATIONAL CONFLICT OF INTEREST (NAVSEA) (JUL 2000)

(a) "Organizational Conflict of Interest" means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage. "Person" as used herein includes Corporations, Partnerships, Joint Ventures, and other business enterprises.

(b) The Contractor warrants that to the best of its knowledge and belief, and except as otherwise set forth in the contract, the Contractor does not have any organizational conflict of interest(s) as defined in paragraph (a).

(c) It is recognized that the effort to be performed by the Contractor under this contract may create a potential organizational conflict of interest on the instant contract or on a future acquisition. In order to avoid this potential conflict of interest, and at the same time to avoid prejudicing the best interest of the Government, the right of the Contractor to participate in future procurement of equipment and/or services that are the subject of any work under this contract shall be limited as described below in accordance with the requirements of FAR 9.5.

(d) (1) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information provided to the Contractor by the Government

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 45 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

during or as a result of performance of this contract. Such information includes, but is not limited to, information submitted to the Government on a confidential basis by other persons. Further, the prohibition against release of Government provided information extends to cover such information whether or not in its original form, e.g., where the information has been included in Contractor generated work or where it is discernible from materials incorporating or based upon such information. This prohibition shall not expire after a given period of time.

(2) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information generated or derived during or as a result of performance of this contract. This prohibition shall expire after a period of three years after completion of performance of this contract.

(3) The prohibitions contained in subparagraphs (d)(1) and (d)(2) shall apply with equal force to any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may merge or affiliate, or any successor or assign of the Contractor. The terms of paragraph (f) of this Special Contract Requirement relating to notification shall apply to any release of information in contravention of this paragraph (d).

(e) The Contractor further agrees that, during the performance of this contract and for a period of three years after completion of performance of this contract, the Contractor, any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may subsequently merge or affiliate, or any other successor or assign of the Contractor, shall not furnish to the United States Government, either as a prime contractor or as a subcontractor, or as a consultant to a prime contractor or subcontractor, any system, component or services which is the subject of the work to be performed under this contract. This exclusion does not apply to any recompetition for those systems, components or services furnished pursuant to this contract. As provided in FAR 9.505-2, if the Government procures the system, component, or services on the basis of work statements growing out of the effort performed under this contract, from a source other than the contractor, subcontractor, affiliate, or assign of either, during the course of performance of this contract or before the three year period following completion of this contract has lapsed, the Contractor may, with the authorization of the cognizant Contracting Officer, participate in a subsequent procurement for the same system, component, or service. In other words, the Contractor may be authorized to compete for procurement(s) for systems, components or services subsequent to an intervening procurement.

(f) The Contractor agrees that, if after award, it discovers an actual or potential organizational conflict of interest, it shall make immediate and full disclosure in writing to the Contracting Officer. The notification shall include a description of the actual or potential organizational conflict of interest, a description of the action which the Contractor has taken or proposes to take to avoid, mitigate, or neutralize the conflict, and any other relevant information that would assist the Contracting Officer in making a determination on this matter. Notwithstanding this notification, the Government may terminate the contract for the convenience of the Government if determined to be in the best interest of the Government.

(g) Notwithstanding paragraph (f) above, if the Contractor was aware, or should have been aware, of an organizational conflict of interest prior to the award of this contract or becomes, or should become, aware of an organizational conflict of interest after award of this contract and does not make an immediate and full disclosure in writing to the Contracting Officer, the Government may terminate this contract for default.

(h) If the Contractor takes any action prohibited by this requirement or fails to take action required by this requirement, the Government may terminate this contract for default.

(i) The Contracting Officer's decision as to the existence or nonexistence of an actual or potential organizational conflict of interest shall be final.

(j) Nothing in this requirement is intended to prohibit or preclude the Contractor from marketing or selling to the United States Government its product lines in existence on the effective date of this contract; nor, shall this requirement preclude the Contractor from participating in any research and development or delivering any design development model or prototype of any such equipment. Additionally, sale of catalog or standard commercial items are exempt from this requirement.

(k) The Contractor shall promptly notify the Contracting Officer, in writing, if it has been tasked to evaluate or advise the Government concerning its own products or activities or those of a competitor in order to ensure proper safeguards exist to guarantee objectivity and to protect the Government's interest.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 46 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(l) The Contractor shall include this requirement in subcontracts of any tier which involve access to information or situations/conditions covered by the preceding paragraphs, substituting "subcontractor" for "contractor" where appropriate.

(m) The rights and remedies described herein shall not be exclusive and are in addition to other rights and remedies provided by law or elsewhere included in this contract.

(n) Compliance with this requirement is a material requirement of this contract.

TECHNICAL INSTRUCTIONS

(a) Performance of the work hereunder will be subject to written technical instructions signed by the Ordering Officer specified in Section G of this task order. As used herein, technical instructions are defined to include the following:

(1) Directions to the Contractor which suggest pursuit of certain lines of inquiry, shift work emphasis, fill in details or otherwise serve to accomplish the contractual statement of work.

(2) Guidelines to the Contractor which assist in the interpretation of drawings, specifications or technical portions of work description.

(b) Technical instructions must be within the general scope of work stated in the task order. Technical instructions may not be used to: (1) assign additional work under the task order; (2) direct a change as defined in the "CHANGES" clause of the basic contract; (3) increase or decrease the task order price or estimated task order amount (including fee), as applicable, the level of effort, or the time required for task order performance; or (4) change any of the terms, conditions or specifications of the task order.

(c) If, in the opinion of the Contractor, any technical instruction calls for effort outside the scope of the task order or is inconsistent with this requirement, the Contractor shall notify the Ordering Officer in writing within ten (10) working days after the receipt of any such instruction. The Contractor shall not proceed with the work affected by the technical instruction unless and until the Contractor is notified by the Ordering Officer that the technical instruction is within the scope of this task order.

(d) Nothing in the foregoing paragraph shall be construed to excuse the Contractor from performing that portion of the contractual work statement which is not affected by the disputed technical instruction.

SECTION G CONTRACT ADMINISTRATION DATA

Task Order Manager
Jeffery Humbert
2008 Stump Neck Road
Indian Head, MD 20640-5070
jeffrey.s.humbert@navy.mil
301-744-6887

ALLOTMENT OF FUNDS (MAY 1993)

(a) This contract is incrementally funded with respect to both cost and fee. The amount(s) presently available and allotted to this contract for payment of fee for incrementally funded contract line item number/contract subline item number (CLIN/SLIN), subject to the clause entitled "FIXED FEE" (FAR 52.216-8) or "INCENTIVE FEE" (FAR 52.216-10), as appropriate, is specified below. The amount(s) presently available and allotted to this contract for payment of cost for incrementally funded CLINS/SLINS is set forth below. As provided in the clause of this contract entitled "LIMITATION OF FUNDS" (FAR 52.232-22), the CLINS/SLINS covered thereby, and the period of performance for which it is estimated the allotted amount(s) will cover are as follows:

ITEM (S)	ALLOTTED TO COST	ALLOTTED TO FEE	PERFORMANCE END DATE
1000 thru 1200	\$26,283,185.00	\$1,931,815.00	14-April-2010
3000 thru 3200	\$ 1,490,633.00	N/A	14-April-2010

TASK ORDER POINTS OF CONTACT

The following contacts are provided for this contract:

Contract Administrator: Sharon Cooper
Phone Number: (301)744-6789
Email: sharon.cooper@navy.mil

Payments/Invoicing: WAWF
Phone Number:

Task Order Manager: Jeffery Humbert
Phone Number: 301.744.6887
Email: jeffrey.s.humbert@navy.mil

Any concerns regarding your task order, should be directed to the above mentioned personnel, or the Ordering Officer Renee Brown at (301) 744-6653.

IHD 86 - SECURITY BADGES AND ON-SITE CONTRACTOR PERSONNEL (NAVSEA/IHD) FEB 2000 Security badges will be issued by the Government only to those contractor personnel who require access to the Indian Head Division, Naval Sea Systems Command in connection with work to be performed under this contract. Approval for such issuance may only be granted by the COTR, Ordering or Contracting Officer.

The Contractor shall maintain a register of employees currently authorized access to the Indian Head Division, Naval Sea Systems Command. This does not include badges temporarily authorized for contractor visitors to Indian Head Division, Naval Sea Systems Command. Furthermore, the contractor shall maintain a current register of contractor personnel with full or part-time work or office space located on board the Naval Sea Systems Command. This register will be made available upon request of the Contracting Officer. The contractor shall follow station security procedures in this regard.

SECTION H SPECIAL CONTRACT REQUIREMENTS

INDIAN HEAD DIVISION, NAVAL SEA SYSTEMS COMMAND, HOURS OF OPERATION AND HOLIDAY SCHEDULE

1. The policy of this station is to schedule periods of reduced operations or shutdown during holiday periods. Deliveries will not be accepted on Saturdays, Sundays or Holidays except as specifically requested by the Naval Sea Systems Command. All goods or services attempted to be delivered on a Saturday, Sunday or Holiday without specific instructions from the Ordering Officer or his duly appointed representative will be returned to the contractor at his expense with no cost or liability to the U.S. Government.

2. The scheduled holidays for Indian Head Division, Naval Sea Systems Command are:

HOLIDAY DATE OF OBSERVANCE

New Year's Day 01 January

Martin Luther King's Birthday 19 January

President's Day 16 February

Memorial Day 31 May

Independence Day 5 July

Labor Day 6 September

Columbus Day 11 October

Veteran's Day 11 November

Thanksgiving Day 25 November

Christmas Day 24 December

* If the actual date falls on a Saturday, the holiday will be observed the preceding Friday. If the holiday falls on a Sunday, the observance shall be on the following Monday.

3. The hours of operation for the Procurement Department and Receiving Office are as follows:

AREA FROM TO

Procurement Department(BLDG. 1558) 7:30 A.M. 4:00 P.M.

Receiving Office (BLDG. 116) 7:30 A.M. 11:00 A.M.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 85 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

12:30 P.M. 2:00 P.M.

If you intend to visit the Procurement Department, it is advised that you call for an appointment at least 24 hours in advance.

AI 25.3 Compliance with Laws and Regulations (5 Nov 07).

The Contractor shall comply with, and shall ensure that its personnel and its subcontractors and subcontractor personnel at all tiers obey all existing and future U.S. and Host Nation laws, Federal or DoD regulations, and Central Command orders and directives applicable to personnel in Iraq and Afghanistan, including but not limited to USCENTCOM, Multi-National Force and Multi-National Corps fragmentary orders, instructions and directives.

Contractor employees performing in the USCENTCOM Area of Operations are under the jurisdiction of the Uniform Code of Military Justice (UCMJ). Under the UCMJ, U.S. commanders may discipline contractor employees for criminal offenses. Contractors shall advise the Contracting Officer if they suspect an employee has committed an offense. Contractors shall not permit an employee suspected of a serious offense or violating the Rules for the Use of Force to depart Iraq or Afghanistan without approval from the senior U.S. commander in the country.

(End)

SECTION I CONTRACT CLAUSES

Reference 52.222-41 Service Contract Act (1965)

In addition to the clauses in the basic contract, the following clauses are incorporated into the subject task order:
52.204-2 SECURITY REQUIREMENTS (AUG 1996)

(a) This clause applies to the extent that this contract involves access to information classified "Confidential," "Secret," or "Top Secret."

(b) The Contractor shall comply with (1) the Security Agreement (DD Form 441), including the National Industrial Security Program Operating Manual (DOD 5220.22-M); and (2) any revisions to that manual, notice of which has been furnished to the Contractor.

(c) If, subsequent to the date of this contract, the security classification or security requirements under this contract are changed by the Government and if the changes cause an increase or decrease in security costs or otherwise affect any other term or condition of this contract, the contract shall be subject to an equitable adjustment as if the changes were directed under the Changes clause of this contract.

(d) The Contractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph (d) but excluding any reference to the Changes clause of this contract, in all subcontracts under this contract that involve access to classified information.

(End of clause)

OPTION TO EXTEND THE TERM OF THE TASK ORDER

(a) The Government may extend the term of this contract by written notice to the Contractor within 365 days of award or exercise of previous option; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the task order expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended task order shall be considered to include this option clause.

(c) The total duration of this task order, including the exercise of any options under this clause, shall not exceed 5 years.

252.225-7003 REPORT OF INTENDED PERFORMANCE OUTSIDE THE UNITED STATES AND CANADA-- SUBMISSION WITH OFFER (JUN 2005)

(a) Definition. United States, as used in this provision, means the 50 States, the District of Columbia, and outlying areas.

(b) The offeror shall submit, with its offer, a report of intended performance outside the United States and Canada if--

(1) The offer exceeds \$10 million in value; and

(2) The offeror is aware that the offeror or a first-tier subcontractor intends to perform any part of the contract outside the United States and Canada that--

(i) Exceeds \$500,000 in value; and

(ii) Could be performed inside the United States or Canada.

(c) Information to be reported includes that for--

(1) Subcontracts;

(2) Purchases; and

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 87 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(3) Intracompany transfers when transfers originate in a foreign location.

(d) The offeror shall submit the report using--

(1) DD Form 2139, Report of Contract Performance Outside the United States; or

(2) A computer-generated report that contains all information required by DD Form 2139.

(e) The offeror may obtain a copy of DD Form 2139 from the Contracting Officer or via the Internet at <http://www.dtic.mil/whs/directives/infomgt/forms/formsprogram.htm>.

(End of provision)

252.225-7004 REPORTING OF CONTRACT PERFORMANCE OUTSIDE THE UNITED STATES AND CANADA--
SUBMISSION AFTER AWARD (JUN 2005)

(a) Definition. United States, as used in this clause, means the 50 States, the District of Columbia, and outlying areas.

(b) Reporting requirement. The Contractor shall submit a report in accordance with this clause, if the Contractor or a first-tier subcontractor will perform any part of this contract outside the United States and Canada that--

(1) Exceeds \$500,000 in value; and

(2) Could be performed inside the United States or Canada.

(c) Submission of reports. The Contractor--

(1) Shall submit a report as soon as practical after the information is known;

(2) To the maximum extent practicable, shall submit a report regarding a first-tier subcontractor at least 30 days before award of the subcontract;

(3) Need not resubmit information submitted with its offer, unless the information changes;

(4) Shall submit all reports to the Contracting Officer; and

(5) Shall submit a copy of each report to: Deputy Director of Defense Procurement and Acquisition Policy (Program Acquisition and International Contracting), OUSD(AT&L)DPAP(PAIC), Washington, DC 20301-3060.

(d) Report format. The Contractor--

(1) Shall submit reports using--

(i) DD Form 2139, Report of Contract Performance Outside the United States; or

(ii) A computer-generated report that contains all information required by DD Form 2139; and

(2) May obtain copies of DD Form 2139 from the Contracting Officer or via the Internet at <http://www.dtic.mil/whs/directives/infomgt/forms/formsprogram.htm>.

(End of clause)

252.225-7040 Contractor Personnel Authorized to Accompany U.S. Armed Forces Deployed Outside the United States.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 88 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(a) Definitions. As used in this clause—

“Combatant Commander” means the commander of a unified or specified combatant command established in accordance with 10 U.S.C. 161.

“Other military operations” means a range of military force responses that can be projected to accomplish assigned tasks. Such operations may include one or a combination of the following: civic action, humanitarian assistance, civil affairs, and other military activities to develop positive relationships with other countries; confidence building and other measures to reduce military tensions; military presence; activities to convey messages to adversaries; military deceptions and psychological operations; quarantines, blockades, and harassment operations; raids; intervention operations; armed conflict involving air, land, maritime, and strategic warfare operations; support for law enforcement authorities to counter international criminal activities (terrorism, narcotics trafficking, slavery, and piracy); support for law enforcement authorities to suppress domestic rebellion; and support for insurgency, counterinsurgency, and civil war in foreign countries.

“Theater of operations” means an area defined by the combatant commander for the conduct or support of specified operations.

(b) General.

(1) This clause applies when Contractor personnel are authorized to accompany U.S. Armed Forces deployed outside the United States in—

(i) Contingency operations;

(ii) Humanitarian or peacekeeping operations;

(iii) Other military operations; or

(iv) Military exercises designated by the Combatant Commander.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 89 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(2) Contract performance in support of U.S. Armed Forces deployed outside the United States may require work in dangerous or austere conditions. The Contractor accepts the risks associated with required contract performance in such operations.

(3) Contractor personnel are civilians accompanying the U.S. Armed Forces.

(i) Except as provided in paragraph (b)(3)(ii) of this clause, Contractor personnel are not authorized to use deadly force against enemy armed forces other than in self-defense.

(ii) Private security Contractor personnel are authorized to use deadly force only when necessary to execute their security mission to protect assets/persons, consistent with the mission statement contained in their contract.

(iii) Civilians who accompany the U.S. Armed Forces lose their law of war protection from direct attack if and for such time as they take a direct part in hostilities.

(4) Service performed by Contractor personnel subject to this clause is not active duty or service under 38 U.S.C. 106 note.

(c) Support.

(1)(i) The Combatant Commander will develop a security plan for protection of Contractor personnel in locations where there is not sufficient or legitimate civil authority, when the Combatant Commander decides it is in the interests of the Government to provide security because—

(A) The Contractor cannot obtain effective security services;

(B) Effective security services are unavailable at a reasonable cost; or

(C) Threat conditions necessitate security through military means.

(ii) The Contracting Officer shall include in the contract the level of protection to be provided to Contractor

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 90 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

personnel.

(iii) In appropriate cases, the Combatant Commander may provide security through military means, commensurate with the level of security provided DoD civilians.

(2)(i) Generally, all Contractor personnel authorized to accompany the U.S. Armed Forces in the theater of operations may be provided resuscitative care, stabilization, hospitalization at level III military treatment facilities, and assistance with patient movement in emergencies where loss of life, limb, or eyesight could occur. Hospitalization will be limited to stabilization and short-term medical treatment with an emphasis on return to duty or placement in the patient movement system.

(ii) When the Government provides medical treatment or transportation of Contractor personnel to a selected civilian facility, the Contractor shall ensure that the Government is reimbursed for any costs associated with such treatment or transportation.

(iii) Medical or dental care beyond this standard is not authorized unless specified elsewhere in this contract.

(3) Unless specified elsewhere in this contract, the Contractor is responsible for all other support required for its personnel engaged in the theater of operations under this contract.

(4) Contractor personnel must have a letter of authorization issued by the Contracting Officer in order to process through a deployment center or to travel to, from, or within the theater of operations. The letter of authorization also will identify any additional authorizations, privileges, or Government support that Contractor personnel are entitled to under this contract.

(d) Compliance with laws and regulations. The Contractor shall comply with, and shall ensure that its personnel authorized to accompany U.S. Armed Forces deployed outside the United States as specified in paragraph (b)(1) of this clause are familiar with and comply with, all applicable—

(1) United States, host country, and third country national laws;

(2) Treaties and international agreements;

(3) United States regulations, directives, instructions, policies, and procedures; and

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 91 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(4) Orders, directives, and instructions issued by the Combatant Commander, including those relating to force protection, security, health, safety, or relations and interaction with local nationals.

(e) Pre-deployment requirements. (1) The Contractor shall ensure that the following requirements are met prior to deploying personnel in support of U.S. Armed Forces. Specific requirements for each category may be specified in the statement of work or elsewhere in the contract.

(i) All required security and background checks are complete and acceptable.

(ii) All deploying personnel meet the minimum medical screening requirements and have received all required immunizations as specified in the contract. The Government will provide, at no cost to the Contractor, any theater-specific immunizations and/or medications not available to the general public.

(iii) Deploying personnel have all necessary passports, visas, and other documents required to enter and exit a theater of operations and have a Geneva Conventions identification card, or other appropriate DoD identity credential, from the deployment center. Any Common Access Card issued to deploying personnel shall contain the access permissions allowed by the letter of authorization issued in accordance with paragraph (c)(4) of this clause.

(iv) Special area, country, and theater clearance is obtained for personnel. Clearance requirements are in DoD Directive 4500.54, Official Temporary Duty Abroad, and DoD 4500.54-G, DoD Foreign Clearance Guide. Contractor personnel are considered non-DoD personnel traveling under DoD sponsorship.

(v) All personnel have received personal security training. At a minimum, the training shall—

(A) Cover safety and security issues facing employees overseas;

(B) Identify safety and security contingency planning activities; and

(C) Identify ways to utilize safety and security personnel and other resources appropriately.

(vi) All personnel have received isolated personnel training, if specified in the contract.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 92 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(2) The Contractor shall notify all personnel who are not a host country national, or who are not ordinarily resident in the host country, that—

(i) Such employees, and dependents residing with such employees, who engage in conduct outside the United States that would constitute an offense punishable by imprisonment for more than one year if the conduct had been engaged in within the special maritime and territorial jurisdiction of the United States, may potentially be subject to the criminal jurisdiction of the United States in accordance with the Military Extraterritorial Jurisdiction Act of 2000 (18 U.S.C. 3621, et seq.);

(ii) Pursuant to the War Crimes Act (18 U.S.C. 2441), Federal criminal jurisdiction also extends to conduct that is determined to constitute a violation of the law of war when committed by a civilian national of the United States;

(iii) Other laws may provide for prosecution of U.S. nationals who commit offenses on the premises of U.S. diplomatic, consular, military or other U.S. Government missions outside the United States (18 U.S.C. 7(9)); and

(iv) When there is a formal declaration of war by Congress, Contractor personnel authorized to accompany U.S. Armed Forces may be subject to prosecution under the Uniform Code of Military Justice.

(f) Processing and departure points. Deployed Contractor personnel shall—

(1) Process through the deployment center designated in the contract, or as otherwise directed by the Contracting Officer, prior to deploying. The deployment center will conduct deployment processing to ensure visibility and accountability of Contractor personnel and to ensure that all deployment requirements are met, including the requirements specified in paragraph (e)(1) of this clause;

(2) Use the point of departure and transportation mode directed by the Contracting Officer; and

(3) Process through a Joint Reception Center (JRC) upon arrival at the deployed location. The JRC will validate personnel accountability, ensure that specific theater of operations entrance requirements are met, and brief Contractor personnel on theater-specific policies and procedures.

(g) Personnel data list.

(1) In accordance with DoD Instruction 3020.41, Contractor Personnel Authorized to Accompany the U.S. Armed Forces, the Contractor shall establish and maintain with the designated Government official a current list of all Contractor personnel that deploy with or otherwise provide support in the theater of operations to U.S. Armed Forces as specified in paragraph (b)(1) of this clause. The list shall include each individual's

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 93 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

general location in the theater of operations. The Contracting Officer will inform the Contractor of the Government official designated to receive this data and the appropriate automated system(s) to use for this effort.

(2) The Contractor shall ensure that all employees on the list have a current DD Form 93, Record of Emergency Data Card, on file with both the Contractor and the designated Government official.

(h) Contractor personnel.

(1) The Contracting Officer may direct the Contractor, at its own expense, to remove and replace any Contractor personnel who jeopardize or interfere with mission accomplishment or who fail to comply with or violate applicable requirements of this clause. Such action may be taken at the Government's discretion without prejudice to its rights under any other provision of this contract, including the Termination for Default clause.

(2) The Contractor shall have a plan on file showing how the Contractor would replace employees who are unavailable for deployment or who need to be replaced during deployment. The Contractor shall keep this plan current and shall provide a copy to the Contracting Officer upon request. The plan shall—

(i) Identify all personnel who are subject to military mobilization;

(ii) Detail how the position would be filled if the individual were mobilized; and

(iii) Identify all personnel who occupy a position that the Contracting Officer has designated as mission essential.

(i) Military clothing and protective equipment.

(1) Contractor personnel are prohibited from wearing military clothing unless specifically authorized in writing by the Combatant Commander. If authorized to wear military clothing, Contractor personnel must—

(i) Wear distinctive patches, arm bands, nametags, or headgear, in order to be distinguishable from military personnel, consistent with force protection measures; and

(ii) Carry the written authorization with them at all times.

(2) Contractor personnel may wear military-unique organizational clothing and individual equipment (OCIE) required for safety and security, such as ballistic, nuclear, biological, or chemical protective equipment.

(3) The deployment center, or the Combatant Commander, shall issue OCIE and shall provide training, if

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 94 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

necessary, to ensure the safety and security of Contractor personnel.

(4) The Contractor shall ensure that all issued OCIE is returned to the point of issue, unless otherwise directed by the Contracting Officer.

(j) Weapons.

(1) If the Contractor requests that its personnel performing in the theater of operations be authorized to carry weapons, the request shall be made through the Contracting Officer to the Combatant Commander, in accordance with DoD Instruction 3020.41, paragraph 6.3.4.1 or, if the contract is for security services, paragraph 6.3.5.3. The Combatant Commander will determine whether to authorize in-theater Contractor personnel to carry weapons and what weapons and ammunition will be allowed.

(2) If the Contracting Officer, subject to the approval of the Combatant Commander, authorizes the carrying of weapons—

(i) The Contracting Officer may authorize the Contractor to issue Contractor-owned weapons and ammunition to specified employees; or

(ii) The [Contracting Officer to specify the appropriate individual, e.g., Contracting Officer's Representative, Regional Security Officer] may issue Government-furnished weapons and ammunition to the Contractor for issuance to specified Contractor employees.

(3) The Contractor shall ensure that its personnel who are authorized to carry weapons—

(i) Are adequately trained to carry and use them—

(A) Safely;

(B) With full understanding of, and adherence to, the rules of the use of force issued by the Combatant Commander; and

(C) In compliance with applicable agency policies, agreements, rules, regulations, and other applicable law;

(ii) Are not barred from possession of a firearm by 18 U.S.C. 922; and

(iii) Adhere to all guidance and orders issued by the Combatant Commander regarding possession, use, safety, and accountability of weapons and ammunition.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 95 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(4) Whether or not weapons are Government-furnished, all liability for the use of any weapon by Contractor personnel rests solely with the Contractor and the Contractor employee using such weapon.

(5) Upon redeployment or revocation by the Combatant Commander of the Contractor's authorization to issue firearms, the Contractor shall ensure that all Government-issued weapons and unexpended ammunition are returned as directed by the Contracting Officer.

(k) Vehicle or equipment licenses. Contractor personnel shall possess the required licenses to operate all vehicles or equipment necessary to perform the contract in the theater of operations.

(l) Purchase of scarce goods and services. If the Combatant Commander has established an organization for the theater of operations whose function is to determine that certain items are scarce goods or services, the Contractor shall coordinate with that organization local purchases of goods and services designated as scarce, in accordance with instructions provided by the Contracting Officer.

(m) Evacuation.

(1) If the Combatant Commander orders a mandatory evacuation of some or all personnel, the Government will provide assistance, to the extent available, to United States and third country national Contractor personnel.

(2) In the event of a non-mandatory evacuation order, unless authorized in writing by the Contracting Officer, the Contractor shall maintain personnel on location sufficient to meet obligations under this contract.

(n) Next of kin notification and personnel recovery.

(1) The Contractor shall be responsible for notification of the employee-designated next of kin in the event an employee dies, requires evacuation due to an injury, or is isolated, missing, detained, captured, or abducted.

(2) In the case of isolated, missing, detained, captured, or abducted Contractor personnel, the Government will assist in personnel recovery actions in accordance with DoD Directive 2310.2, Personnel Recovery.

(o) Mortuary affairs. Mortuary affairs for Contractor personnel who die while accompanying the U.S. Armed Forces will be handled in accordance with DoD Directive 1300.22, Mortuary Affairs Policy.

(p) Changes. In addition to the changes otherwise authorized by the Changes clause of this contract, the Contracting Officer may, at any time, by written order identified as a change order, make changes in the place of performance or Government-furnished facilities, equipment, material, services, or site. Any change order issued in accordance with this paragraph (p) shall be subject to the provisions of the Changes clause of this contract.

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 96 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(q) Subcontracts. The Contractor shall incorporate the substance of this clause, including this paragraph (q), in all subcontracts when subcontractor personnel are authorized to accompany U.S. Armed Forces deployed outside the United States in—

(1) Contingency operations;

(2) Humanitarian or peacekeeping operations;

(3) Other military operations; or

(4) Military exercises designated by the Combatant Commander.
(End of clause)

252.225-7041 CORRESPONDENCE IN ENGLISH (JUNE 1997)

The Contractor shall ensure that all contract correspondence that is addressed to the United States Government is submitted in English or with an English translation.

(End of clause)

252.225-7042 AUTHORIZATION TO PERFORM (APR 2003)

The offeror represents that it has been duly authorized to operate and to do business in the country or countries in which the contract is to be performed.

(End of clause)

252.225-7043 ANTITERRORISM/FORCE PROTECTION POLICY FOR DEFENSE CONTRACTORS OUTSIDE THE UNITED STATES (MAR 2006)

(a) Definition. United States, as used in this clause, means, the 50 States, the District of Columbia, and outlying areas.

(b) Except as provided in paragraph (c) of this clause, the Contractor and its subcontractors, if performing or traveling outside the United States under this contract, shall--

(1) Affiliate with the Overseas Security Advisory Council, if the Contractor or subcontractor is a U.S. entity;

(2) Ensure that Contractor and subcontractor personnel who are U.S. nationals and are in-country on a non-transitory basis, register with the U.S. Embassy, and that Contractor and subcontractor personnel who are third country nationals comply with any security related requirements of the Embassy of their nationality;

(3) Provide, to Contractor and subcontractor personnel, antiterrorism/force protection awareness information commensurate with that which the Department of Defense (DoD) provides to its military and civilian personnel and their families, to the extent such information can be made available prior to travel outside the United States; and

(4) Obtain and comply with the most current antiterrorism/force protection guidance for Contractor and subcontractor personnel.

(c) The requirements of this clause do not apply to any subcontractor that is--

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 97 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

- (1) A foreign government;
- (2) A representative of a foreign government; or
- (3) A foreign corporation wholly owned by a foreign government.

(d) Information and guidance pertaining to DoD antiterrorism/force protection can be obtained from [Contracting Officer to insert applicable information cited in PGI 225.7403-1].

(End of clause)

252.227-7025 LIMITATIONS ON THE USE OR DISCLOSURE OF GOVERNMENT-FURNISHED INFORMATION MARKED WITH RESTRICTIVE LEGENDS. (JUN 1995)

(a)(1) For contracts requiring the delivery of technical data, the terms "limited rights" and "Government purpose rights" are defined in the Rights in Technical Data--Noncommercial Items clause of this contract.

(2) For contracts that do not require the delivery of technical data, the terms "government purpose rights" and "restricted rights" are defined in the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation clause of this contract.

(3) For Small Business Innovative Research program contracts, the terms "limited rights" and "restricted rights" are defined in the Rights in Noncommercial Technical Data and Computer Software--Small Business Innovative Research (SBIR) Program clause of this contract.

(b) Technical data or computer software provided to the Contractor as Government furnished information (GFI) under this contract may be subject to restrictions on use, modification, reproduction, release, performance, display, or further disclosure.

(1) GFI marked with limited or restricted rights legends. The Contractor shall use, modify, reproduce, perform, or display technical data received from the Government with limited rights legends or computer software received with restricted rights legends only in the performance of this contract. The Contractor shall not, without the express written permission of the party whose name appears in the legend, release or disclose such data or software to any person.

(2) GFI marked with government purpose rights legends. The Contractor shall use technical data or computer software received from the Government with government purpose rights legends for government purposes only. The Contractor shall not, without the express written permission of the party whose name appears in the restrictive legend, use, modify, reproduce, release, perform, or display such data or software for any commercial purpose or disclose such data or software to a person other than its subcontractors, suppliers, or prospective subcontractors or suppliers, who require the data or software to submit offers for, or perform, contracts under this contract. Prior to disclosing the data or software, the Contractor shall require the persons to whom disclosure will be made to complete and sign the non-disclosure agreement at 227.7103-7 of the Defense Federal Acquisition Regulation Supplement (DFARS).

(3) GFI marked with specially negotiated license rights legends. The Contractor shall use, modify, reproduce, release, perform, or display technical data or computer software received from the Government with specially negotiated license legends only as permitted in the license. Such data or software may not be released or disclosed to other persons unless permitted by the license and, prior to release or disclosure, the intended recipient has completed the non-disclosure agreement at DFARS 227.7103-7. The Contractor shall modify paragraph (1)(c) of the non-disclosure agreement to reflect the recipient's obligations regarding use, modification, reproduction, release, performance, display, and disclosure of the data or software.

(c) Indemnification and creation of third party beneficiary rights. The Contractor agrees--

(1) To indemnify and hold harmless the Government, its agents, and employees from every claim or liability, including attorneys fees, court costs, and expenses, arising out of, or in any way related to, the misuse or unauthorized modification, reproduction, release, performance, display, or disclosure of technical data or computer software

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 98 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

received from the Government with restrictive legends by the Contractor or any person to whom the Contractor has released or disclosed such data or software; and

(2) That the party whose name appears on the restrictive legend, in addition to any other rights it may have, is a third party beneficiary who has the right of direct action against the Contractor, or any person to whom the Contractor has released or disclosed such data or software, for the unauthorized duplication, release, or disclosure of technical data or computer software subject to restrictive legends.

(end clause)

252.239-7000 PROTECTION AGAINST COMPROMISING EMANATIONS (JUN 2004)

(a) The Contractor shall provide or use only information technology, as specified by the Government, that has been accredited to meet the appropriate information assurance requirements of--

(1) The National Security Agency National TEMPEST Standards (NACSEM No. 5100 or NACSEM No. 5100A, Compromising Emanations Laboratory Test Standard, Electromagnetics (U)); or

(2) Other standards specified by this contract, including the date through which the required accreditation is current or valid for the contract.

(b) Upon request of the Contracting Officer, the Contractor shall provide documentation supporting the accreditation.

(c) The Government may, as part of its inspection and acceptance, conduct additional tests to ensure that information technology delivered under this contract satisfies the information assurance standards specified. The Government may conduct additional tests--

(1) At the installation site or contractor's facility; and

(2) Notwithstanding the existence of valid accreditations of information technology prior to the award of this contract.

(d) Unless otherwise provided in this contract under the Warranty of Supplies or Warranty of Systems and Equipment clause, the Contractor shall correct or replace accepted information technology found to be deficient within 1 year after proper installations.

(1) The correction or replacement shall be at no cost to the Government.

(2) Should a modification to the delivered information technology be made by the Contractor, the 1-year period applies to the modification upon its proper installation.

(3) This paragraph (d) applies regardless of f.o.b. point or the point of acceptance of the deficient information technology.

(End of clause)

252.239-7001 INFORMATION ASSURANCE CONTRACTOR TRAINING AND CERTIFICATION (JAN 2008)

CONTRACT NO. N00178-04-D-4143	DELIVERY ORDER NO. FG01	PAGE 99 of 100	FINAL
----------------------------------	----------------------------	-------------------	-------

(a) The Contractor shall ensure that personnel accessing information systems have the proper and current information assurance certification to perform information assurance functions in accordance with DoD 8570.01-M, Information Assurance Workforce Improvement Program. The Contractor shall meet the applicable information assurance certification requirements, including--

(1) DoD-approved information assurance workforce certifications appropriate for each category and level as listed in the current version of DoD 8570.01-M; and

(2) Appropriate operating system certification for information assurance technical positions as required by DoD 8570.01-M.

(b) Upon request by the Government, the Contractor shall provide documentation supporting the information assurance certification status of personnel performing information assurance functions.

(c) Contractor personnel who do not have proper and current certifications shall be denied access to DoD information systems for the purpose of performing information assurance functions.

(End of clause)
